Chapter 3

My Senses

EVS B - 08

We have five sense organs. These are ears, eyes, nose, skin, and tongue. Each sense organ has a different job to do.

I see with my eyes.

I smell with my nose.

I hear with my ears.

I taste with my tongue.

I feel with my skin.

Match each sense organ to the activity it performs.

Teacher's Note

Explain to the children that our sense organs help us understand the world around us. Encourage them to explore different objects using their senses of sight, hearing, smell, taste, and touch.
