Preface

The early years lay the foundation for a child's lifelong learning and development. During this formative stage, stories create a wonderful space for children to explore language, discover new ideas, express emotions, and let their imagination soar.

Wonder Tales for **Nursery**, **LKG & UKG** is thoughtfully crafted to make storytelling an engaging and enriching experience for young learners. Featuring simple, delightful, and age-appropriate stories, the series draws children into familiar situations while introducing them to new experiences, ideas, and perspectives.

Rooted in the vision of **NEP 2020** and the principles of **Early Childhood Care and Education** (**ECCE**), the series promotes holistic development through joyful, play-based, and experiential learning. Each story encourages children to listen attentively, observe closely, think creatively, communicate confidently, and express their thoughts and feelings.

Carefully chosen themes and vibrant illustrations support the development of vocabulary, communication, imagination, creativity, social-emotional skills, and positive values. Every story is designed not only to entertain but also to spark curiosity, encourage meaningful conversations, and connect learning with children's everyday lives.

We hope **Wonder Tales** fills each reading moment with joy and wonder, while nurturing a lasting love for stories, books, imagination, and learning.

Happy Reading!

Akshat's Online Learning Day

It was a rainy morning. Clouds filled the sky and, rain was falling outside Akshat's window.

Story B - 1

Akshat looked outside and said sadly, "Oh no! School is closed today."
His mother smiled and said, "Don't worry, your teacher has arranged an online class."

Akshat's mother showed him the tablet.
"Can I really study on this?" Akshat asked curiously.
"Yes, you can click here and join your class," his mother said.
On the screen, the teacher smiled and said, "Good morning children!"
Akshat clapped happily, "Good morning, Ma'am!"

The teacher taught counting with balloons and songs.
Akshat said loudly, “One, two, three!” and laughed.
The teacher also showed colourful pictures of animals and asked simple questions. Akshat raised his hand on the screen and answered correctly.
“Very good, Akshat!” said the teacher.

After class, he said, “Mama, this was so much fun!” His mother replied, “Yes, technology helps us learn anywhere.”
Akshat smiled and said, “I love learning, even at home!”
